EXPERIENCE

Arcesium India Pvt Ltd

May 2025 - Jun 2025

SDE Intern

Bengaluru, India

Enhanced the ETL pipeline with a centralized metadata management layer as the single source of truth for report execution. Achieved 60% faster read performance and 25% higher write throughput compared to the earlier approach. Reduced issue turnaround time by 50% by enabling self-serve access for the finance team and eliminating developer dependencies.

BOSTON-RVCE Centre of Excellence In AI Research

Nov 2023 - Dec 2023

Project Intern

Bengaluru, India

Developed a tool to predict credit card defaults, aiding financial institutions in risk management and decision-making. Utilized Machine Learning algorithms to accurately predict the default and built user-friendly system with Flask backend.

EDUCATION

RV College of Engineering

Nov 2022 - Jul 2026

B.E. in Computer Science and Engineering, CGPA: 9.55

Bengaluru, India

Sri Venkatramana PU College

Aug 2020 - Jun 2022

Pre University PCMC, Percentage: 96.33, KCET Rank: 424

Udupi, Karnataka

PROJECTS

Mernera - MERN Stack based SaaS

mernera.shrivarshapoojary.in

Built MERNERA, a SaaS platform enabling institutes to create and manage courses with secure Razorpay payments, instructor-led content, student subscriptions, quizzes, and real-time chat, supporting admin management, instructor delivery, and student learning experiences.

Clear Zone AI - Intelligent Vision System for Workplace Safety

github.com/shrivarshapoojary/Clear-Zone-Ai

Developed Clear Zone AI, a real-time computer vision system for workplace safety using YOLO and Mediapipe to detect hazards, protocol violations, and risky behaviors. Integrated live video analytics and automated alerts drive proactive safety enforcement in industrial settings.

Logify - Unity based application to learn digital electronics

shrivarsha.itch.io/logify

Game-themed application to learn about logic gates and MSI components. Used by over 200 students annually to learn the concepts of logic gates.

VigilNet - Intelligent Network Security and Threat Analysis tool

github.com/shrivarshapoojary/VigilNet

Developed VigilNet, an advanced tool that analyzes network logs from firewalls and servers, identifies potential threats, scans websites for vulnerabilities, and captures real-time packets for forensic investigation. Generates comprehensive security reports to enable proactive network defense.

Rechat - Realtime Secure Messaging Platform

rechat.shrivarshapoojary.in

Developed ReChat, a full-stack real-time chat application leveraging the MERN stack and WebSockets to enable instant messaging, group conversations, and typing indicators. Integrated secure OTP-based authentication for secure registration. Implemented responsive design with file sharing and advanced search capabilities.

CERTIFICATIONS

Introduction to Edge Computing

NPTEL, Jan 2025

Secured Elite + Gold certification with a top 1% rank out of 3,700 learners.

Spring Boot Certification

Udemy, Dec 2024

SKILLS

Programming Languages: Java, C++, Python, C, JavaScript, TypeScript

Development: MERN, Spring Boot, FastAPI, Flask, MUI, PrimeReact, TailwindCSS, Junit, Mockito

Artificial Intelligence: Machine Learning, NLP, Deep Learning, Computer Vision, Gen AI

Other technologies: AWS, Docker, Kubernetes, Kustomize, GitLab, CI-CD
