EXPERIENCE

Hexmos Technology

May 2024 - Jul 2024

Project Intern

Developed a tool to analyze blog post titles, enhancing content creation by focusing on capturing user attention and increasing the click rate.Utilized technologies such as **Generative AI** , **AWS Lambda** , **Docker** .Built user friendly UI with Figma , **ReactJs** , **Prime React** and **TailwindCSS**.

BOSTON-RVCE Centre of Excellence In AI Reasearch

Nov 2023 - Dec 2023

Project Intern

Developed a tool to predict credit card defaults, aiding financial institutions in risk management and decision-making.Utilized **Machine Learning** algorithms to accurately predict the default .Built User friendly system supported with **Flask** backend .

EDUCATION

RV College of Engineering

Bengaluru,India

B.E. in Computer Science and Engineering CGPA: 9.77

Nov 2022 - Jul 2026

Sri Venkatramana PU College

Udupi, Karnataka

Pre University PCMC Percentage: 96.33, KCET Rank : 424

Aug 2020 - Jun 2022

PROJECTS

Mernera - MERN Stack based E-learning Platform

<https://mernera.vercel.app/>

Integrated RazorPay for secure Payment processing .Implemented **role-based access** control for admin and user resources.. Implemented **live chat** functionalities for query resolution.

Logify - Unity based application to learn digial electronics

<https://shrivarsha.itch.io/logify>

Game themed application to learn about logic gates and msi components. **Used by over 200 students** annually to learn the conceptsof logic gates.

Predecem- Application to predict concrete strength

<https://github.com/shrivarshapoojari/Predecem>

Utilized **machine learning** algorithms to predict concrete strength, enhancing construction quality control and planning. Developed a user-friendly interface for seamless application usage, providing easy input of material properties and instant strength predictions.

MLD Library - Library to detect memory leaks in C programs

<https://github.com/shrivarshapoojari/MLD>

Developed a **C library** to detect memory leaks in C programs. Utilized **graph algorithms** to efficiently identify memory leaks,enhancing program reliability and performance.

CERTIFICATIONS

Data Science Masters 2.0

PW Skills , Apr 2024

The Complete Web Development Bootcamp

Udemy , Sep 2023

SKILLS

Programming Languages Java , C ++, Python , C , JavaScript

Web Development HTML , CSS , MongoDB , ExpressJs , ReactJS, NodeJs , Tailwind CSS , PrimeReact ,Flask

Artificial Intelligence Machine Learning , NLP, Deep Learning , Pandas

Other Tools Git , Docker
